E & OE Specifications subject to change without notice

The all-new Aristel Digital DV Gold Series leads the way in combining today's most wanted features with the ultimate in ease of operation. The result is a stylish multi-functional communications system that will give your business a decisive competitive advantage.

Inbuilt options include a GSM card to enable wireless connection to the telephone network, voice mail with 100 mailboxes, VOiP card for computer telephony and least cost call routing. These are just some of the features that make the Aristel DV Gold Series the intelligent choice for business.

The flexibility of a fully expandable design allows the DV Gold Series system to grow with your business. Handsets are available with various feature levels to suit your budget and requirements. The system can even be expanded to up to 130 extensions using the DV96+ option.

The DV 38 can handle up to 38 voice channels/lines and 28 extensions. This includes a primary rate with 30 channels.

Call management features

- > Inbuilt least cost call routing
Select a low cost call carrier and slash your call costs with Aristel LCR. The system determines the lowest cost carrier for the number dialled.
- > Caller ID function
See who is calling before you answer the phone. DV Series handsets with display show the calling number.
- > Voice Mail
Enjoy the efficiency of up to 100 voice mail boxes complete with auto attendant call management.
- > Call detail listing
The DV Series allows a complete listing of all incoming and outgoing call details, including dialled numbers and call duration.
- > Individual call level facility
Call restrictions can be set to bar STD/ISD calls on specified extensions if desired, and can be over-ridden with a personal account code.
- > Cordless phone compatible
The DV Series offers full compatibility with DECT and Aristel Durafon cordless phones to increase the efficiency of staff on the move.

Your personal assistant

- > Follow-me function
This feature allows your calls to be directed to the extension of your choice, wherever you may be on the premises.
- > Personal time and date reminder
Simply enter important dates or appointment times on your handset for a convenient reminder as they arise.
- > Convenient calculator
No more hunting for a calculator while you are on the phone. The DV Series puts a calculator at your fingertips on display models.
- > System speed dials
Store a massive 1,000 phone numbers ready for instant speed dial.
- > GSM Card
An in-built GSM card allows the DV Gold Series to connect to the telephone wirelessly, just like a mobile phone.

Advanced, user-friendly design

- > Adjustable, backlit LCD screen
The large LCD screen on display models adjusts to optimum viewing angle and brightness.

Individual ring control

- > Handsets can be allocated an individual ring frequency and volume for easy recognition.
- > Line status indicators
DV Series line indicators change colour from red to green for easy identification of call status.

Certified quality

Aristel is a world leader in business communications, with systems sold in over 50 countries, and over 30,000 systems installed in Australia alone.

Every Aristel DV Gold Series system is fully covered by a one-year all-component warranty, supported by the Aristel manufacturing and worldwide distribution network.
